The image features three dandelion seed heads against a background that transitions from a pale blue on the left to a soft green on the right. The seed heads are positioned at the top, bottom left, and bottom right, with their thin, white, feathery seeds radiating outwards. The central seed head is the most prominent and in focus, while the others are slightly blurred.

A timeless vision ascends,
carving the air with celestial splendour

Revealing unseen wonders

Continuing OMNIYAT's commitment to imagining the extraordinary and building it into reality, VELA VIENTO was conceived by the finest designers who push boundaries to create global masterpieces.

Award-winning practice Foster + Partners crafted VELA VIENTO's horizontal lines and smooth curves into a fascinating rhythm that dances across OMNIYAT's properties, from VELA VIENTO and VELA to The Lana and beyond.

Parisian designer duo Gilles & Boissier have once again brought their signature style to an OMNIYAT property in an exquisite illustration of luxury interior design.

A sublime *arrival*

Surrounded by lush landscaping and majestic layers of water, the grand, ramping approach leads you to an elevated lobby. Here, the Burj Khalifa is framed as a perfect view between the airy elevations of VELA VIENTO.

Step into the warm welcome of Dorchester Collection's exceptional care, where your valet and doorman await you. The double-height entrance lounge, designed by Gilles & Bossier, provides a wonderful first impression and luxurious meeting place for residents and visitors. Beyond the glass, the views are wonderful in every direction.

In a shining beacon of luxury and sophistication,
celestial beauty awaits

An alchemy of beauty and possibility

The 92 residences range from two to four-bedroom apartments and are crowned by two extraordinary penthouses.

The residences exemplify the delights of indoor-outdoor living, with select residences boasting private terrace pools and double-height spaces. Generous proportions create an ambiance of vastness, ideal for relaxation, entertainment, and savoring the panoramic views of Marasi Bay, Burj Khalifa and Downtown Dubai.

The spaces and bridges between the towers form 'hanging' dining rooms - an outstanding feature of three unique residences that turn a daily experience into a transcendent moment that blurs glass with sky, the earthly with the celestial.

An architectural rendering of a modern waterfront promenade. On the left, a large, multi-story building with a curved, cantilevered design and a series of white columns supports an upper level. The ground floor is open, revealing a brightly lit interior with a staircase and various shops or offices. People are walking along a wide, paved promenade in the foreground. To the right, more modern buildings are visible, including a tall, slender tower and a larger building with a grid-like facade. In the background, a sailboat is docked at a pier, and the water is visible. The sky is a clear, light blue. The overall atmosphere is one of a vibrant, modern urban waterfront.
